(1) Data prior to 2005 can be compared with data from 2005 and thereafter by converting the index based on 2004=100.0 to an index that is comparable to the one based on 2001=100.0. This is done by multiplying the index of each variable by its average index for 2004 (based on 2001), and dividing it by 100.
